(54) Title: **HOUSED BUSH ROLLER ASSEMBLY**

(57) Abstract: A roller assembly for guiding and supporting a moveable object within a track is provided comprising a sliding
chriot adapted to be affixed to a moveable object, and a supporting roller assembly comprising a supporting roller having an aperture
through the center thereof, a pin secured at one end to said chriot and extending through the supporting roller aperture, and a bush
positioned between said supporting roller and said pin to provide a sliding surface between said supporting roller and said pin.
